ntelligent Points Network

We help points collectors and issuers to

We help point issuers to connect with new collectors so they can spread their message.

We help point collectors and issuers to form stronger communities to achieve a set of common goals.

We help people to reward good behaviour.

Simple things and complex things done well.

To achieve our goal we do simple things and we do complex things. Simple is counting things, complex is helping you to say thank you to someone, anyone in the world securely and efficients.

We run highly scalable cloud services as part of the proposed data network.

We build a reputation for being good at all times.

Loyalty Point Schemes

We help high street stores say thank you in store and online.

We operate the Lolly Points scheme so w

We help you to give credit to others and to get credit by collecting, sharing and enjoying digital points.

Helping you to say thank you

We help people to say thank you in a cryptographically secure way with digital points.

We aim to design and build an open standard which operates in harmony with the web and people. Designed to protect and respect shared values.

We support academic communities to achieve our goal.

Charities & Spor Associations

We work with Charities and Sports Assoc

We provide tools to connect donors with

We support community based projects directly and indirectly to achieve our goal.

Know your true value
